

International Moon Day

Event Report

International Moon Symposium

For Spanish and Portuguese speakers

Organized by:

| No. | Name | Role |
|-----|---------------------|--|
| 1 | Mario Gálvez | MVA National Coordinator of Guatemala |
| 2 | Kevin Sánchez | MVA National Coordinator of Costa Rica |
| 3 | Álvaro Yuste Pubill | MVA National Coordinator of Spain |
| 4 | Xitlali Chávez | MVA National Coordinator of México |
| 5 | Suyan Malhadas | MVA National Coordinator of Brazil |

Event Description:

The event was held in Spanish and Portuguese, showing our community that we can work together, know more about our capabilities and trust more in our knowledge skills. We shared our own organizations created to support each other and we explained how the Moon Village Association works. We also explained why we were celebrating the International Moon Day, the importance of the theme of this year, and the scope of work of the MVA in the future.

The event showed to our countries the local projects about Moon exploration that are going on, that were unknown to a lot of people. Our goal was to change their beliefs that we do not have participation in space projects, and inspire them to get involved in space activities and projects.

Based on the comments after the event, we could see we accomplished our goal, and we showed to our community, we are working together.
