

To Moon Village Association

Number : 06-148-054-2-007

Subject : Post-Event Report of FOR ME Project

Our first event was the Metaverse Webinar on July 5, as part of the FOR ME project that we realized as Altair Unmanned Vehicle Systems, Space and Law Association (hereinafter will be referred to as “we” or “Altair”). In the online event with approximately 20 participants, we learned about what Metaverse is, from which platforms it can be accessed, its legal regime, opportunities, and the way its forward.

Afterwards, we went to the camp on July 16 and organized ASOR Moon Camp 2022 without charging any of the 15 participants. A nice seminar on Space and Nature Photography and Camping took place there. The broadcast of that seminar will soon be published on our Youtube channel in its original Turkish version and with English subtitles. After the seminar, the Milky Way exposures were made, and when the Moon rose, many Moon photos were taken by observing the Moon. Stars were then observed through sky map apps, and the ISS transit was tracked. A video of an interview with the participants in this camp will be published soon with both Turkish and English subtitles.

After the camp, we sent a feedback form to the participants via a link. It was a pleasure for us to see how satisfied the participants who filled out the form from this link were with our camp and the overall event. It was the first time we organized such an event and we completed it almost flawlessly. As a result of the fairly comprehensive form, which the participants were asked to fill with all honesty so that we can improve ourselves and do better activities, we got a pretty good score. We measured their evaluations of the camp in every aspect, from campsite to event planning, from communication to meals, from transportation to logistics in general, and the result was: 87.5%.

The photographs taken at the camp were exhibited in the Metaverse environment after the three-speaker webinar on sustainability and lunar law on 20 July.

Link of the exhibition:

While about 15 people attended the webinar, the exhibition has been visited by about 35 people so far. Then, on 25-27 July, an exhibition was held in the physical environment at the art gallery at the Ankara Bar Association Training Center. Although it was a judicial holiday in Turkey, about 80 people were guests in this exhibition in 3 days. These photographs taken at the camp will also be physically exhibited at the Düzce Bar Association next week, on August 5th.
